The 2020 competition was canceled due to global pandemic and was postponed until 2022. Many students appreciated the experience and the learning opportunity it provided. This year's event was organized by the local university and featured a variety of challenges and activities. The event was designed to encourage students to apply their knowledge in practical situations and develop their problem-solving skills.

In addition to the main competition, there were several other activities organized for students. These included a series of workshops, guest lectures, and networking events. The workshops were aimed at providing students with practical skills and knowledge in specific areas, while the guest lectures invited experts from the industry to share their experiences and insights.

Overall, the event was a great success and provided a valuable learning experience for the students. The organizers were pleased with the feedback they received and are looking forward to organizing similar events in the future.
