ADVANCING SCIENCE FROM SPACE AND THE GROUND

Dr. France A. Córdova
Director, National Science Foundation
53rd Robert H. Goddard Memorial Symposium
March 12, 2015
Groundtruthing Aquarius Salinity Measures
Life in Lake Vostok
Life in Yellowstone Geysers
Planet Hunting
On the Cusp
Robert H. Goddard as Inspiration to Advance Science

“It has often proved true that the dream of yesterday is the hope of today and the reality of tomorrow.”

- Robert H. Goddard
